i-teen

Co-funded by the European Union

The European project I-TEEN develops educational products to foster inclusion and improve key competences of secondary school students through ICT.

ONLINE COURSE FOR STUDENTS

A path that develops skills such as digital citizenship, bullying prevention and environmental awareness, through interactive tools quizzes, infographics, videos, galleries and more.

TEACHERS' TOOLKIT

A set of practical resources for designing inclusive lessons, with lesson plans, activities and methodological tools

BOARD GAME

A board game allows students to practice social and environmental skills in a fun way, using challenge cards and tools.

All materials are accessible in English, Italian, Slovenian and Spanish via a free e-learning platform at http://i-teenplatform.eu/
